

Kyabram District Health Service

For over 50 years Kyabram District Health Service (KDHS) has been caring for people in the community.

It has been the community which has remained steadfast to the development of the facilities and services.

The 50 years covered thus far illustrates how integral this facility is to the vitality and heartbeat of our community.

From the years already travelled we know that together a combined, unified and strong community can achieve, can progress and can deliver.

Although KDHS is Government funded, donations and bequests assist to purchase equipment and make improvements that are not funded but make life easier for staff and provide a nice environment for patients, residents and staff.

District Nursing Services

OUR PURPOSE
Healthy Community. Local Care

“Over the years our family has supported the Kyabram and District Memorial Community Hospital, (now Kyabram District Health Service) and we have also appreciated the good attention received, when health care was needed.

A vibrant, modern and progressive hospital is essential for a town like Kyabram, to cater for the sick, the elderly and the maternal needs of our community.

Unfortunately we cannot rely on government support for funding and the locals need to continue to dig deep to ensure our hospital keeps up with Kyabram’s health needs.

A bequest as explained in this brochure is one way you can contribute.”

YOUR GIFT TO THE FUTURE

Naming Kyabram District Health Service (KDHS) in your Will is a powerful yet simple act of generosity. It provides a gift for the future, a legacy to be used to ensure the provision of quality health services to our community.

PLANNING FOR TOMORROW

Making a Will is an important part of everyone's future financial planning.

A Will allows you to make sure your money and assets benefit the people and causes you care most about, whatever the future may hold.

When you leave a bequest in your Will to KDHS, it provides a legacy to be used to ensure the provision of quality care for the community, which could include: purchasing medical equipment that is not funded by the government, enhancing care programs, introducing new services, capital works, etc.

Early Childhood Intervention Services

HOW YOUR GIFT WILL HELP

A gift to KDHS in your Will gives you the satisfaction of knowing that you are touching the lives of future generations of your community, ensuring they receive quality health care into the future.

YOUR WILL, YOUR BEQUEST

There are a number of ways you can provide for KDHS in your Will:

- A **residual bequest** provides for your family and friends first, then leaves the remainder or part of the remainder to KDHS;
- A **percentage of your estate** can be divided among a number of people and an organization such as KDHS;
- A **specific amount** leaves a specific dollar amount to KDHS. Specific dollar amounts can be eroded by inflation, so should be reviewed regularly;
- A **particular bequest** can leave a specific piece of property including shares, securities, real estate or some other tangible piece of property;
- A **trust** allows a spouse or other person to use your property and to receive the income derived from your estate during their lifetime. The capital can then pass to KDHS after they have passed on.

You can make your own Will, but the majority of people prefer to seek the services of a solicitor who can assist you.

This information is provided as a general guide only and not intended to be legal advice. We suggest individuals obtain their own advice in relation to making their will.

Kyabram District Health Service is endorsed as a Deductible Gift Recipient.
